

***** Dash And CryptoRefills Partner To Accelerate Adoption Of Crypto For Everyday Needs *****

Dash announces its partnership with CryptoRefills to promote and accelerate the adoption and use of Dash for everyday needs. CryptoRefills now allows users from any country in the world to pay with Dash for mobile top ups, music and video streaming services, games and apps from the leading app stores as well as hotel stays and flights.

Felix Mago, Co-Founder of Dash NEXT and Dash Thailand: “This partnership is yet another milestone for mass adoption of Dash as it provides our users a huge variety of shopping options all around the world.”

Massimiliano Silenzi, founder of CryptoRefills: “With Dash, we offer a great option for fast and cheap crypto payment experience, as well as welcome a lively community of crypto shoppers”.

About Dash

Dash is a payments-centric digital currency that enables anyone to make quick, easy and cost-effective payments at anytime, anywhere in the world, without going through a central authority. Based on a decentralized peer-to-peer network, and secured by strong cryptography, Dash offers a safe and user-friendly payment method without barriers.
