Istanbul, February 20th 2020, in occasion of the Blockchain Economy event in Istanbul, Cryptorefills announces its new catalogue for the Turkish Market. As of today, 50 new brands and a localized website and app are available to Turkish users wishing to pay for digital goods, gift cards, vouchers, e-pins and mobile top ups and data bundles with Bitcoin or other cryptocurrencies.

Cryptorefills is a website and Android app offering users in over 150 countries the possibility to use their bitcoin and crypto to make everyday purchases. Turkish users are among the top adopters of cryptocurrency in the world, positioning this country as a hotspot in the blockchain sector and a key market for Cryptorefills.

Users in Turkey can now enjoy an entire new catalogue of over 50 brands and products that can be purchased with Bitcoin, Litecoin and Dash. The new Turkish catalogue includes game platform credits (Steam, Xbox, PlayStation), E-pins (League of Legends, Pubg, Metin2, Ogame), App Store & Social Network credits (Google Play, iTunes), music and video streaming subscriptions (Netflix), E-learning services (Busuu) as well as mobile airtime and data from all mobile operators. Users will also be able to benefit from a new interface and support in Turkish.

Cryptorefills is exhibiting the Blockchain Economy event in Istanbul on February 20th – 21st. For media or business enquiries, or to schedule a meeting, please contact us at <https://www.cryptorefills.com/contact-us>
