Amsterdam June 29th 2020, CryptoRefills and Dash Next announce, as part of their ongoing partnership, special CryptoRefills rewards for current and new Dash users.

Last month CryptoRefills announced its brand new loyalty program through which users paying with cryptocurrency for mobile top ups and gift cards earn points for each purchase. Once CryptoRefills users earn enough points, they can redeem crypto as a reward for their loyalty. Thanks to the special partnership between Dash Next and CryptoRefills, as of today, users redeeming Dash instead of other cryptocurrencies, will get 30% more value for their points.

Dash benefits from the partnership because members of the Dash community get more value for their purchase. Furthermore, members that have paid with other currencies are incentivized to redeem Dash as a reward and test this currency. CryptoRefills benefits from the partnership by attracting more Dash users to its service.
